

## **Green Dot College Training Policies & Agreements**

### **TEAM ATTENDANCE**

To maximize the potential for real change on a college campus, a team approach to Green Dot is required. If you are coming from a campus that is already implementing Green Dot, you are welcome to attend the training solo or with other team members. If your campus is new to Green Dot, we require a team of at least 2-3 participants from your campus, with a strong recommendation for teams of 5 to 10. One person cannot single-handedly create the sustained changes that an issue like power-based personal violence requires us to strive for. We recommend that team members include not only designated prevention/intervention staff, but also professionals across your institution like faculty, student affairs staff, and administrators. Finally, any participants from agencies outside of a campus are required to attend in partnership with a local campus team. While outside agencies can provide much needed support and expertise, Green Dot is a campus mobilizing effort and must be led from within the institution.

I have read and understand the expectations for team attendance. If attending solo, I confirm that EITHER, (1) There are already trained instructors on my campus, OR (2) I am simply "scouting" the program to make recommendations for my campus. If I am only scouting, I understand that I may not implement on my campus until additional instructors are trained. If there are not already trained instructors on my campus, and I intend to implement, I confirm that I am attending with more than one person from my campus.

### **GREEN DOT IMPLEMENTATION**

Only college personnel can implement the Green Dot strategy on their campuses. Any participants from agencies outside of a campus are required to attend in partnership with a local campus team. While off site agencies can provide much needed support and expertise, Green Dot is a campus mobilizing effort and must be led from within the institution.

### **PROGRAM TRAINING POLICY**

This training is only for those implementing on a college campus. This training will not equip you to implement in middle schools, high schools, military installations, or your general community.

### **TRAINING ATTENDANCE POLICY**

You must attend the entire training each day to become a Green Dot College instructor.

## INSTRUCTOR POLICY

Upon completion of the training you will be a Green Dot College Instructor. This means that you can implement the Green Dot Violence Prevention Strategy at your college, but does NOT mean that you can train other individuals or groups to implement the strategy.

## COLLEGE USAGE AGREEMENT

I have read the above and agree to adhere to the license agreement, the implementation goals of this curriculum, the broader philosophy on which it is based, and the guidelines and usage specifics outlined here.
