

## **Green Dot Institute Registration Info**

The Green Dot Prevention Strategy is comprised of three components: (1) Workshops, (2) Social Marketing Campaigns, and (3) Evaluation. Each component can be delivered to members of the campus community in-person, virtually, or both. When implemented effectively, these components can drive behavior change and ultimately transform campus culture. For more information about the strategy go to <u>our website</u>.

## **Training**

The Green Dot Institute (GDI) is a two-part implementation training that certifies participants to implement Green Dot on their college campus: (1) Coordinating Team Training, and (2) Instructor Training.

**Part One: Coordinating Team Training** is a half-day virtual course that certifies participants to serve as coordinators. The Coordinating Team is responsible for strategic planning, logistics, oversight, and ensuring each component of the Green Dot Strategy is done with fidelity. Coordinators also serve as the primary contact for the designated Alteristic staff providing implementation support.

**Part Two: Instructor Training** is a two-day (15 hour) course that is offered virtually. The course prepares instructors to deliver Green Dot workshops with a focus on content mastery, effective facilitation, fidelity, and engaging delivery. The training experience is highly interactive and often personally challenging. The course is designed to inspire and strengthen the hope of participants – *and* equip each participant to inspire hope in those who attend their workshops.

Before registering for training, please reach out to Kristen Parks at <a href="mailto:parks@alteristic.org">parks@alteristic.org</a> to discuss training options for the new strategy.

## Introductory Costs (Valid through December 2024)

Instructors from campuses currently implementing:.....\$ 650/participant

One-time fee (inclusive of the required Coordinating Team Training):......\$2,500
